lavanya_arul

Education

Coimbatore institute of technology
Bachelor of Engineering – Computer Science and Engineering 2023 – 2027
CGPA: 8.04
Kamaraj Matriculation Higher Secondary School,Chidambaram.
Hsc passed out with 96.4%

Professional Experience

Full Stack Intern – Placement Development Cell:

Implemented backend form logic with 100% validation using Python and PostgreSQL - Reduced client-side errors by 30% through structured debugging and testing

Projects

Movie Recommendation System
Technologies: Python, Pandas, Scikit-learn, Streamlit

- Built a **content-based movie recommendation system** using **TF-IDF vectorization** and **cosine similarity**.
- Performed **feature engineering** on movie metadata (genres, keywords, cast, director, overview).
- Developed an **interactive Streamlit web app** for user-friendly movie selection and recommendations.
- Optimized performance using **caching techniques** to ensure fast and efficient recommendations.
- Processed and analyzed large datasets using **Pandas** for data cleaning and transformation.

Food Recipe Sharing Platform
Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js)

- Developed a **full-stack food recipe sharing platform** using the **MERN stack**.
- Implemented **secure user authentication** (register & login).
- Enabled users to **add, view, update, and delete recipes** (CRUD operations).
- Designed and managed backend APIs using **Node.js, Express.js, and Mongoose**.
- Built a **responsive, component-based UI** with React for efficient state management and reusability.
- Integrated **MongoDB** for scalable data storage and schema design.

Skills

Languages : java, c, c++, python
Technical skills : Data structures and Alogrithms,
OOPS, DBMS, OS
Databases : SQL
Software & Frameworks :VS code, Eclipse,Selenium
IDE
Platforms: windows , linux

ACHIEVEMENTS

- LeetCode Badge Holder – Solved 250+ DSA problems, demonstrating consistent problem-solving practice.
